

## *Engineered Coating Systems for the Built Environment*

Armorize with AbShield™

---

### **Confined Space Powder Coating for Odors & Odor Emitting Building Materials**

**SI – 211<sup>©</sup>**

---

*AbShield™ SI-211 engineered coating is designed for treatment of odors in confined spaces or spaces enclosed by odor emitting interior walls, ceilings and related construction materials.*

*The coating is delivered by a patented delivery process. Once in place the coating layer absorbs and neutralizes undesirable odors including smoke from fire, musty odors and odors from animal decomposition among others.*

*The coating adheres to the building materials in the hidden areas forming an absorbent layer that neutralizes and eliminates the effects of odors and odor emitting interior surfaces.*

*The coating forms a molecular absorbent layer within the confined spaces, blanketing the surfaces and objects within the hidden spaces.*

*Are there lingering odors you can't get rid of? Our coating system can handle it.*

*You will see immediate results within 1 hour of treatment.*

*"Superior Results for Odor Elimination"*

*Innovative Concepts ■ Absolute Solutions*
